JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

unless such dead body shall be first inclosed in a hermetically sealed zinc-lined or other metallic casket.

No dead body of any person who has died of Asiatic cholera, yellow fever, typhus fever, or smallpox shall be shipped or carried into or from said city by any means of conveyance whatsoever.

In preparing for shipment the dead body of any person who has died of scarlet fever, diphtheria, or membranous croup, the said body shall be wrapped in a sheet saturated either with a solution of bichloride of mercury of a strength of one part in two thousands, or with a solution of carbolic acid of the strength of one part in forty. The said body shall then be inclosed in a tightly sealed casket, and said casket shall be placed in a zinc-lined or a tin-lined box hermetically sealed.

RULE 37 (b). The body of any person who has died of any contagious disease except Asiatic cholera, yellow fever, typhus fever, or smallpox, when taken directly from the place of death to the grave must be completely wrapped in absorbent cotton and then wrapped in a sheet saturated with a solution of bichloride of mercury 1:2,000; all inclosed in a tightly sealed casket.

Cemeteries. (Reg. Bd. of H., May 28, 1912.)

RULE 38. It shall be the duty of every superintendent of a cemetery, or other person in charge of any cemetery or burying ground within the city, to receive the permits issued for burials in said cemetery or burying ground; to preserve the same and to furnish to the board of health of said city, upon Monday of each week, a written report, upon blank forms to be furnished upon application by said board of all burials made or caused to be made by him.

RULE 39. Any grave in which any dead body shall be buried within this city shall be dug to a depth of not less than 5 feet below the surface of the ground.

RULE 40. No new cemetery, burying ground, vault or tomb for the reception and burial of human bodies shall be established within this city, or under the control of any organization within said city, without a permit so to do first being granted by the board of health of said city. No additions shall be made to those already in use without the same authority.

Offensive Trades, Regulation of. (Reg. Bd. of H., May 28, 1912.)

RULE 41. No person, company, firm or corporation shall erect or maintain any manufactory or place of business within this city which is dangerous to life or detrimental to health, or where unwholesome, offensive, or deleterious odors, gas, smoke, deposit, or exhalations are generated, except in such places as are allowed by the board of health. All such establishments shall be kept clean and wholesome, nor shall any offensive or deleterious waste substance be allowed to accumulate upon the premises or be thrown or allowed to run into any public waters, stream, watercourse, street, or public place.

RULE 42. All licenses granted by the board of health may be revoked at the discretion of said board.

Distribution of Samples of Medicines. (Reg. Bd. of H., May 28, 1912.)

RULE 43. No person shall distribute, or cause to be distributed, from house to house on any street in this city, any package or bottles containing free samples of any medicinal substances, or substances for household use, except by permission of the board of health.

Barbers and Barber Shops. (Reg. Bd. of H., May 28, 1912.)

RULE 44. The place of business, together with all the furniture, shall be kept at all times in a cleanly condition.

Mugs, shaving brushes, and razors shall be sterilized in boiling water after every separate use thereof.

A separate clean towel shall be used for each person.

Alums or other astringents shall be used in powdered form and applied with a clean towel.

The use of powder puffs and sponges is prohibited.

Every barber shop shall be provided with running hot water (through a pressure boiler).

Every barber shall clean his hands thoroughly immediately after serving each customer.

Hair brushes and combs shall be thoroughly washed at least once a day.

No person shall be allowed to use any barber shop as a dormitory.

Shaving mugs, etc., except those in constant use, shall be kept in closed or covered receptacles.

Hair and other waste accumulations shall be destroyed each day by fire, or by such means as the board of health may approve.

Every barber, after handling anyone with any skin eruption, must cleanse his hands thoroughly before handling the next person, and all tools used in connection therewith must be thoroughly sterilized before they are used again.

Milk—Production, Care, and Sale. (Reg. Bd. of H., May 28, 1912.)

RULE 45. No milk shall be sold in the city of North Adams after the passage of this ordinance, except from cows that have been subjected within one year to examination that shall be satisfactory to the board of health and to the inspector appointed by the mayor and the council of the city of North Adams under section 12, chapter 90 of the Revised Laws of Massachusetts, and pronounced free from the disease known as tuberculosis or any other disease that may render the milk injurious to man.

In case an examination made by any person other than the inspector of the city of North Adams shall be unsatisfactory either to him or to the board of health, a proper examination shall be made by said inspector for the city of North Adams, and his decision shall be final.

Any person selling or distributing milk or keeping cows from which milk is sold or distributed in the city of North Adams, shall, upon the addition of any cow or cows to his dairy, immediately give notice to the board of health of such addition, and the board of health shall thereupon order an examination of such animal or animals to be made, as provided in section 1 of this ordinance.

Any person selling or distributing milk in the city of North Adams shall, at the time of taking out his license, inform the board of health, in writing, of all sources from which he receives his supply, and upon making any change whatever in the sources of supply shall immediately give notice to the board of health of such change.

Whenever the board of health shall deem it necessary, but not less frequently than once during each year, it shall make or cause to be made an inspection of all dairies and other places from which milk is sold in the city of North Adams, and shall keep a written report of the result of such inspection on file in its office for public examination and reference.

All such premises and all vessels and vehicles used in the business of selling or distributing milk shall be kept in a perfectly clean and sanitary condition and at all times acceptable to the board of health, and no person who refuses to allow such inspection to be made in accordance with section 3 of this ordinance or who fails to keep his premises, vessels, and vehicles as above mentioned in such cleanly and sanitary condition as shall be satisfactory to the board of health or fails to comply with the written orders and recommendations of the board of health or to provide such proper light and ventilation of his stables and such sources of water supply as the board shall deem necessary shall be allowed to sell or distribute milk in the city of North Adams.

Every person keeping cows from which milk is sold in the city of North Adams shall have a room entirely apart from the stable (although it may be in the same building, if desired) in which the milk shall be strained and cooled, said room to have a tight
